According to the State of Connecticut SMART – aka pay as you go, is a low-cost program designed to benefit residents to save money and reduce trash. The SMART Program has an option for a “Cart Based” or “Bag Based” system. Cart Based is a volume based system resident pays for what they toss out. Bag based is a system in which the resident purchases the size bag they plan to use. The price of the bag covers a portion of the cost of the disposal for the bag. This system has been proven to reduce the amount of trash and increase the amount of items being recycled.
